FASHION'S HEADQUARTERS!

The young men and older of advanced taste want a long and generously loose Overcoat this fall. It can be worn with or without a belt. You will find nothing smarter this season. The fabrics we offer for your choice are plain, striped, plaid and mixed Cheviots, black and oxford Cheviots and Friezes; also the famous Cravenette rainproof fabrics in light and medium weights. All of these are Rochester-made goods. Our reason for quoting so often our Rochester-made goods is that we have handled clothing made in all the different markets in the country but never any that are as satisfactory to us as Rochester makes. If you want your boy to be well dressed, in clothes that will wear well, bring him here. We can fit him out from the best boys' apparel in the city at prices that are the lowest that can be asked for dependable clothing. Our Men's and Boys' Shoe trade is daily increasing, and why should it not? We sell the best that are made, and warrant every pair that we sell.

DOWN IN CUBA

Maysville Man Advises Mason County People to Stay in "Old Kentucky."

THE LEDGER takes pleasure in printing this sensible letter, received from a sensible man-HAVANA, October 7th, 1904.

Dear Tom: Last month I was sent down

here among Uncle Sam's wards to look into some fruit-growing propositions. Have been over to the Isle of Pines, and am now investigating the Havana neighborhood and Westward to Bahia Honda and Herradura. Many Americans have come here and engaged in business in Havana or bought farming lands, which are to be had at low prices; but in my opinion Old Kentucky is nearer Heaven than this country is, and to all who think of investing in orange grove lots, or other schemes of the land promoters down here, I would say don't-for Heaven's sake, don't,-but come down and see the conditions that obtain here.

A Northern man can have no idea of the difficulties of farming here, where vegetation grows rankly all the time and the rainfall is 9 o'clock on the evening of November 2d at 60 inches or more per year, and sometimes 2 inches per hour.

> The farmers are now preparing the ground for tobacco, which is set out this month and cut in December and January. The ground is so beaten down by the rains and matted with grass that it is sometimes necessary to plow it seven or eight times in order to get it in condition for planting.

The American Tobacco Company has bought out recently the Henry Clay & Bock Company, and pretty well control the prices of leaf tobacco here. They have large tobacco plantations in Cuba, and I am informed buy a great deal in the market; but 25 cents per pound is about the topmost price to the farmer. As an acre the topmost price to the farmer. As an acre produces only from 500 to 700 pounds, one can readily see that the Cuban planter has no great advantage over the Kentucky farmer.

Editor Ledger: Evidently the party who wrote all were pleased with the "Twelfth Night" farce didn't hear the uncomplimentary expressions from the "ladies of the house" as they advantage over the Kentucky farmer.

Oranges are being planted by thousands of acres in Cuba, mostly, I believe, along the Northern coast where water transportation is convenient; but what is to be done with the crop when raised is not so apparent. Some Havana merchants, whom I interviewed, tried shipping oranges to the United States, but lost money in the business and quit.

There are no bearing orange groves on the Isle of Pines. A few thousand trees have been planted, and with plenty of fertilizer will, in all probability, bear well; but one might as well have an orchard in Timbuctoo for all the prospect there is to move the crop when raised.

The talk of those interested in selling land thereabout that island being soon to come under the control of the United States appears to me to be extremely silly. She is tied to Cuba's apron string good and strong, and don't you
